<b>Project</b>	<b>Heritage Impact Assessment Drottningholm, Sweden</b>
Commissioned by	Swedish Transport Administration, Stockholm (Trafikverket)
Execution	2016
	<p>In the vicinity of Stockholm, a new road as well as a new highway ring road are currently being planned. In this context, a Heritage Impact Assessment has been prepared to address on a strategic level the impact of these infrastructural plans on the Outstanding Universal Value of the UNESCO World Heritage Site Royal Domain of Drottningholm.</p> <p>In a second phase of the project, it is now necessary to assess the impact of the finalized plans on the World Heritage property.</p>
Co-Worker	Michael Kloos
Partner	Katri Lisitzin, Heritage Consultant / Sweden
Status / Result	Completed, final report published in 2016.
